176. The following is a recommendation from the city manager of Bridge Bay.
"Last year, the number of visits to our local beach in Bridge Bay was 50 percent lower than the year before. Early last year we ended our contract with Arko Trash Collection, a company that had serviced local garbage collection for the past twenty years. We switched at that time to Satellite Waste Corporation, another trash collection company. In nearby Ocean Harbor, where Arko has continued to provide garbage collection, the beaches are experiencing record levels of attendance. Meanwhile, in Bridge Bay, complaints about garbage on our beach have increased this year. Clear- ly, inadequate garbage collection on our beach by Satellite has led to the significant drop in visi- tors. Therefore, in order to restore visitor numbers to our local beach, we recommend resuming our contract with Arko as soon as possible."

Write a response in which you discuss what questions would need to be answered in order to de- cide whether the recommendation and the argument on which it is based are reasonable. Be sure to explain how the answers to these questions would help to evaluate the recommendation.

评价与错误

OH 继续用 A 公司未必就是 OH 游客数量多的主要原因。O 地有可能近几年加强了旅游方面的宣传，所以知道 O 地的游客更多，或者 O 地最近举办了比如 Jazz festival 之类的活动，吸引了很多的爵士乐迷到 O 地来旅行。而且 O 地之前一直用 A 公司，但是游客数量并没有显著增加的证据，说明游客选择 O 地并不仅仅是因为 O 地继续雇佣 A 公司打扫垃圾。

有抱怨说 B 城海滩的垃圾多了不见得是游客数量减少的原因。肮脏的环境固然是游客不选择一个地方旅行的因素，但是这是不是建立在游客已经来到了 B 城的基础上，才能产生这种抱怨呢？而且，即便海滩环境干净整洁，游客也未必会选择 B 城来旅行。有可能 B 城的海滩之前人太多，影响游客体验，所以今年游客就不来 B 城的海滩了。或者 B 城的海滩缺少足够的游乐设施，比如冲浪，摩托艇，等等，或者由于经济因素，经费紧张，缺少必要的安全保障，比如救生员之类。又或者 B 城海滩所处的位置周围最近建了工厂，导致 B 城海滩水质下降。这些都可能是更主要的游客不选择 B 城海滩来旅行的原因。

S 公司不行未见得 A 公司就是最佳选择。即便我们假设真的 S 公司在垃圾收集上真的有问题，也不一定非要选择 A 公司。有可能有其他的公司可以更好的满足垃圾收集的要求。A 公司在 O 城的成功也不一定能够证明 A 城能够在 B 城复制同样的成功。可能 B 城的垃圾收集的情况更复杂，城市更大，A 公司在 O 城能够有足够的技术，人力，等方面能够 manage O 城的需求也不见得能够 manage B 城的需求。

177. The following appeared in a letter to the city council of Canbury from the president of Plexma Motors.
"I am pleased that the council is considering Plexma's plans to open a new manufacturing site in Canbury next year. In addition to our regular line of cars, Plexma has also begun designing and testing a line of automated self-driving vehicles. In a recent survey conducted by local media, 60 percent of Canbury's residents reported that they would purchase a Plexma self-driving vehicle in the future if they were confident in the vehicles 'safety. We are happy to report that last summer, we tested our new line of self-driving vehicles in downtown Canbury with great success. Not only did our five tested vehicles remain accident-free for two months during testing, but in a survey conducted after testing, 90 percent of Canbury's residents reported that when they were downtown and our vehicles were in operation they felt very safe. Because steady demand for our self-driving vehicles will create new jobs and thereby greatly benefit Canbury's economy as a whole, I recommend that you vote to allow Plexma to begin manufacturing and selling these vehicles in Canbury."

仅有的实验不足以说明无人驾驶汽车已经非常安全。仅有 5 辆车 2 个月的时间在 downtown 的限定范围内，即便没有出现任何事故，也不足以证明无人驾驶汽车技术已经成熟。首先，由于活动范围现在在 downtown，车辆的设计方可以事先充分了解当地的路况，交通情况等等，做出非常详细的预案，规避风险。而且仅仅 2 个月的时间，可能这 2 个月 downtown 区域刚好没有什么车辆，比如可能在 holiday season。因此，这样小样本，限制条件如此多的实验，不足以说明无人驾驶汽车已经非常安全。

实验期间，市民调查觉得车辆在 downtown 的时候他们觉得安全，也不一定意味着居民对无人驾驶车辆有信心。居民可能在调查的时候并不知道路上有无人驾驶汽车，或者知道也无法分辨。而他们遵守交通规则，当地的事故率也没有显著提高，因此他们感觉安全。这不意味着他们觉得无人驾驶汽车非常安全。
根据调查说 60%的人认为无人驾驶汽车安全会购买，并不能代表真的有 steady demand。即便调查覆盖的人群足够大，足够多样，调查也没有引导性，客观的反应出了样本的态度，这些居民的购买意愿和购买行为也是完全不同的两个概念。居民说会购买意味着他们在选择买车的时候可能会将无人驾驶汽车作为一个可能的选项，但是真的影响他们实际购买的因素有很多：价格，是否方便维修，车体大小，耗油量，等等。因此因为这样就说无人驾驶汽车有 steady demand 并不成立。

推动无人驾驶汽车可以创造新工作部分，缺乏证据支持。

178. The following appeared as a memorandum from the Human Resources director at Dexter Gorman Instruments, a company that manufactures saxophones.

"On this year's survey about work habits, our employees tended to strongly agree with the idea that if they took less time to complete their assigned work, the quality of their work would suffer. However, we recently conducted an internal study that proves this idea wrong. Managers across several divisions identified an overtime group: the employees who worked an average of 48 or more hours per week over the past year instead of the expected 40 hours per week. We then looked at the number of documented work errors produced by all of our employees during the past year and found that the overtime group was responsible for significantly more work errors overall than their fellow employees. On the basis of these findings, our recommendation to the company president is to require employees at Dexter Gorman Instruments to complete their work during the regular 40-hour work week and allow overtime only for urgent circumstances."

评价与错误

首先，这次内部调研结果是否反映真实工作情况？仅靠总体工作失误的数量，无法说明每个加班人的工作质量都很差。由加班群体造成的工作失误虽然总体上明显大于其他员工，很可能是其中一两位新手的失误众多。另外，平均加班时间是如何统计的，有无打卡记录证明？如果是员工们自己声称的加班时长，很可能是为了向自己的领导表达工作辛苦，以此来博取同情，为失误找借口。（证据瑕疵类）

即使这个加班人群确实有比较普遍的失误情况，是不是因为加班影响了他们的工作质量？人力总监有没有忽视其他更重要的因素可能导致失误较多的结果？有没有可能这个加班人群负责的萨克斯制作工艺与其他员工相比更精细更复杂，譬如萨克斯管上的雕刻（engraving on saxophone）非常需要经验和技巧，通常由雕刻大师完成。可能 Dexter Gorman Instruments 公司的雕刻工艺特别复杂，所以造成了这些员工比较多的工作失误，与加班时长无关。另外，有多少员工没有加班？他们在过去一年中负责了多少订单？如果绝大部分订单都是由加班人群负责的，总量特别大，出错的次数也就多些。（溯因类）

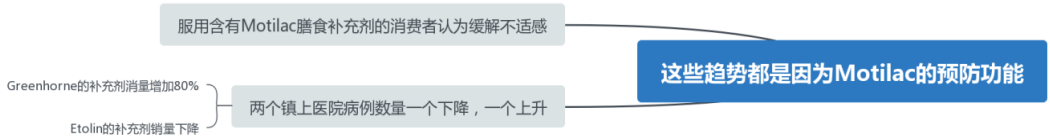

最后，人力总监的建议是不是必要的？一方面，作者并没有考虑未来订单量的变化，要求员工们在每周 40 小时的正常工作时间内完成工作是很草率的。可能因此造成产品质量下滑或无法按时完成订单，都会影响 Dexter Gorman Instruments 公司的声誉。另一方面，这个方案也没有解决员工们超时工作可能影响工作质量的情况。毕竟，所谓的紧急情况包括了赶进度，还是会需要加班。因此，这个建议并不是必要的，Dexter Gorman Instruments 公司可以考虑多招人手，来缩短单个员工的工作时间。（片面类）

179. The following appeared in the Health section of the Greenhorne Gazette.

"Motilac is a substance that occurs naturally in the human digestive tract. Many consumers of dietary supplements containing motilac report significant easing of digestive discomfort after just a few weeks of use. Among Greenhorne residents, the consumption of motilac supplements has increased 80% over the last seven years. Last year, Greenhorne's five hospitals reported fewer cases of serious gastrointestinal disorders than any year on record. Meanwhile, sales of motilac supplements are declining in the neighboring town of Etolin. Notably, hospitals in Etolin report a steady increase in the last two years in patients experiencing a wide range of distressing gastrointestinal symptoms. The clear explanation of these trends is that motilac is effective in preventing many serious gastrointestinal disorders."

Write a response in which you discuss one or more alternative explanations that could rival the proposed explanation and explain how your explanation(s) can plausibly account for the facts presented in the argument.

评价与错误

首先，作者指出了服用含有 Motilac 膳食补充剂的消费者自认为在使用几周后，他们消化道的不适感明显缓解，作者想以此说明是由于 Motilac 的预防性功效。然而，消费者自述的情况改善不一定是事实。可能是采访这些消费者的时候，提供了礼物或优惠。同时，在没有专业医生的检查之前，自我感觉症状减轻，不代表胃肠系统没有疾病。（证据瑕疵类）

即使服用含有 Motilac 膳食补充剂的消费者确实症状缓解甚至消失，作者将此归因给 Motilac。但是，他忽视了可能是补充剂中的其他成分产生作用，缓解了症状。同时，这些补充膳食营养的消费者可能还改善了自己的生活方式：健康饮食和运动锻炼。（溯因类）

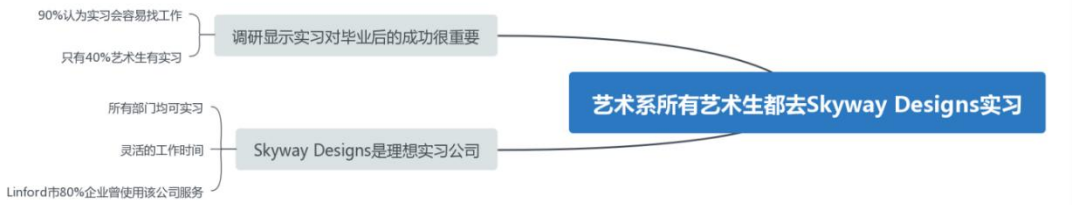

同时，Greenhorne 五家医院报告的严重胃肠道疾病病例比历史上任何一年都要少，作者认为这和当地过去 7 年中增加了 80% Motilac 补充剂的消费量有关。然而，五家医院是否覆盖足够的肠胃病样本做统计，假设 Greenhorne 新开了一家专业的肠胃病医院，许多患者转向新开的医院，那原来的五家可能就减少了，但格林豪泰总的得肠胃病的患者人数可能没有减少。当然，病例比历史上任何一年都要少，也不能说明数量真的很少，可能历史上 Greenhorne 每一年的病例都非常多，去年只是少了 10 例。（证据瑕疵类）

此外，Etolin 医院报告过去两年中，严重胃肠道疾病患者数量的增加也可能与其他因素有关，并非由于当地居民没有受益于 Motilac 的预防功效。有许多原因可能导致肠胃病患者人数增加，比如水源污染，气候变冷，人口老龄化等等，不能确定与减少 Motilac 的使用有关。（溯因类）

180. The following letter is from a group of Linford College alumni to the chair of the art department at the college.
"In a recent survey of college graduates, 90 percent agreed that participating in an internship increased their chances of finding a job after graduation, but last year, only 40 percent of Linford's graduating art students had completed an internship. Skyway Designs, located in nearby Linford City, is the perfect company for students to intern with for a number of reasons: They offer internships in all of their departments, so every student is sure to find work that they are interested in. Additionally, their internships offer flexible working hours. Finally, Skyway Designs is known for being one of the best in the design business, as over 80 percent of businesses in Linford City have used the services of Skyway Designs for their design needs. Given the vital role that work experience plays in a student's success after graduation, we recommend that our art department require all art students to complete an internship with Skyway Designs before graduation."

评价与错误

首先，关于那项针对大学毕业生的调查，90%的参与者认为实习会增加他们毕业后找到工作的机会，这项调研的结果是否有代表性？可能参与者人数很少，也可能认为实习对找工作重要的毕业生基本都不是艺术生。毕竟，很多艺术生开始自己的艺术事业是通过作品参赛、举办展览等等，并不一定需要去公司实习。此外，毕业后找到工作等于成功么？特别是学习艺术专业的学生，其中绘画、雕塑、电影等等专业的学生，可能毕业后会通过自身努力获得独立艺术家的身份。他们成功的判定标准就比较多元了，可以是重大奖项、收藏纪录、拍卖纪录、参展次数等等。（证据瑕疵类）

尽管不排除这样的可能：Linford 大学的艺术生大多需要去公司实习，那么 Skyway Designs 是不是唯一的选择？文中陈述了 Skyway Designs 作为理想实习地点的原因是不是站得住脚？虽然 Skyway Designs 所有部门均提供实习机会，但这间公司是以什么服务知名？现实中，有装修设计、户外广告设计、网络广告创意策划等等不同类型的设计公司，如果 Skyway Designs 仅仅是提供公路广告牌(billboard)的公司，对于学习动画艺术设计的学生来说可能就不那么有吸引力了，同样，学习艺术史的同学可能更希望进入画廊或博物馆实习。（必要条件类问题）

虽然可能 Skyway Designs 与 Linford 大学的设计生专业对口(a job in their field of study)，文中也指出 Skyway Designs 能为 Linford 市 80%以上的企业提供设计服务，但是这一市场优势能否使学生们受益？一方面，如果 Skyway Designs 真如前面所说，是一间公路广告牌的设计公司，可能由于它有比较多的广告牌资源，所以吸引了很多公司来使用它的服务，然而需要考虑未来公路广告牌的传统市场需求是否会下滑。另一方面，这一论据也从侧面说明了 Skyway Designs 的业务许多在本地，

此类企业很可能不是国际知名企业。因此，想要成功的艺术生们可能更偏向于进入更国际化、创新型的大公司。（必要条件类问题）
